

Strategy 2027: Stronger Together

Our Vision: Fewer strokes, better outcomes, support and care for all

Our Mission

By 2027

Enabling Goals

Prevent Stroke

We seek to prevent stroke by advocating, raising awareness and building partnerships to reduce stroke risks for all Australians.

Achieve national progress towards reducing the main risk factors for stroke

Empower our people to deliver on our mission

Save Lives

We support and empower hospitals and healthcare professionals across Australia to deliver excellent stroke care.

Improve access and delivery of evidence-based stroke care

Align our research for greatest impact

Enhance Recovery

We connect people living with the impact of stroke to information, support and services throughout their life.

Reach people with impactful products and services that align with their needs

Advocate for our community

Grow our profile and funding for mission activity

Enhanced and secure digital capabilities

The voice of stroke in Australia

Guiding principles
