

Request for lived-experience partners

Co-design or joining your research team

This application form is for researchers seeking to partner with people with lived experience of stroke through co-design or joining your research team.

If you are looking for study participants, please use our form '[Request to recruit research participants](#)'.

Research teams are required to complete our co-designed e-learning module on [working effectively with people with lived-experience](#).

Have members of the research team completed this e-module?

YES ☐ NO ☐

1. Project title:

2. Short title for ad listing:
(recommended <10 words)

3. Chief Investigator details

Full name:

Job title and place of
work/study:

Phone:

Email:

4. Administering institution:

**5. Does this activity have
ethics approval?**

☐ Yes – I have attached a copy of the approval notice

☐ No – I have applied but not yet received ethics approval

☐ N/A – Design phase and/or research member request

**6. If applicable, enter the
funding body details:**

7. What is the project about? What are the aims?

Tips: Use plain English and language suitable for people with lived experience, e.g. what you would use on a flyer or social media. Include any links to your project.

8. What is the role you are seeking assistance with?

Tip: If you have a position description available, please provide this along with this application form.

9. What are the activities involved in the role?

10. What are the skills and experience required for the role?

11. What other specific criteria is relevant for this role?

12. What commitment is involved?

Enter the anticipated timeframe, the frequency and length of activities involved, including meetings and any pre-work that may be required.

13. Where will the activity be undertaken? Are there specific locations or can the activity be done remotely?

14. Is there a budget allowance for the role?

☐ YES (enter details)

☐ NO (enter details)

15. Will the activity involve a minimum of two people with lived experience of stroke?

☐ YES (enter details)

☐ NO (enter details)

16. We understand that for people with lived experience of stroke, working with research teams is not always easy and difficulties can arise. Support and clear lines of communication are important. How will support be offered and provided for people with lived experience in this project?

17. Provide the details of who people should contact who are interested in this role.

Full name:

Job title and place of work/study:

Phone:

Email:

18. Please provide an anticipated end date for advertising this request (if approved).

I, _____ agree and acknowledge that I:
Understand Stroke Foundation's [Privacy Policy](#) and [Engagement in Research Activity Policy](#) and certify that the Chief Investigator responsible for this activity has authorised this submission and acknowledges Stroke Foundation's policies (as applicable to this application).
By submitting this form, you are agreeing for Stroke Foundation to contact you.
